PROFESSIONAL OVERVIEW

Information Technology graduate, Magna Cum Laude, with experience in IT Operations, Data Analytics, and full-stack development. Skilled in building data-driven workflows, dashboards, and automation solutions using Microsoft 365 and Power Platform. Experienced in leading technical projects across IoT, AR, and web development.

WORK EXPERIENCE

System Engineer, July 2026 – Present

ACTech2 - Makati, Philippines

- Develop and deploy **full-stack web applications** using **Python, Django, TypeScript, and Docker**, delivering features to production servers.
- Perform **automated and manual testing** to identify defects and improve application stability and reliability.

IT Operations & Data Analytics Intern, February 2026 – May 2026

Accenture Philippines - Mandaluyong, Philippines

- Developed **automation tools, data pipelines, and dashboards** using **Power Apps, Power Automate, Power BI, and SharePoint**, streamlining operational workflows and reducing manual tracking.
- Improved **data governance across five SharePoint lists** and developed an **AI-powered reporting agent** using Microsoft tools to automate reporting.
- Presented **system architecture and operational insights** to stakeholders, supporting project decisions and progress.

EDUCATION

BS Information Technology, August 2026

Pamantasan ng Lungsod ng Maynila (PLM) - Manila, Philippines

- Magna Cum Laude | 1.36 OGWA, Dean's Lister (2022 - 2026)

Senior High School – STEM Strand, July 2022

Universidad de Manila (UDM) - Manila, Philippines

- With High Honors | 96 OGWA

TECHNICAL PROJECTS

ManilarServe: Augmented Reality Indoor Navigation System, July 2025 – Nov 2025

Project Manager, Full Stack Developer

- Led development of an **AR indoor navigation platform**, overseeing system architecture, frontend-backend integration, and project delivery.

MediQnect: IoT-Based Smart Pill & Syrup Dispenser, January 2025 – July 2025

Project Manager, Hardware Developer, Backend Developer

- Developed an IoT healthcare solution integrating ESP32, MQTT, and backend APIs for real-time monitoring and automated dispensing.

CERTIFICATIONS & TRAINING

Data Analytics Fundamentals, DataSense Analytics, September 2026

AI Fundamentals: Foundations for Understanding AI, Cisco Networking Academy & IBM SkillsBuild, July 2026

Data Analytics Essentials, Cisco Networking Academy & DICT-ITU, May 2026

AI in Business Analytics: The Future of Planning and Decision-Making, Ateneo de Manila, October 2025

Fundamentals of Machine Learning & AI, AWS Training and Certification, August 2025

Software Engineering Online Course, Saylor Academy, December 2024

Introduction to Data Analytics using Microsoft Excel, Coursera, September 2024

TECHNICAL SKILLS

Python, PHP, JavaScript, C#, Django, Docker, Firebase, Supabase, SQL, AngularJS, Flutter, FastAPI, Bootstrap, Power Apps, Power Automate, Power BI, SharePoint, Excel, Google Workspace, ESP32, MQTT, Sensor Integration, Data Analytics, Data Analysis, Data Cleaning, Data Visualization, Dashboard Development, Data Pipelines, Data Governance, Data Strategy, Data Ethics, IT Operations, IT Support, Technical Troubleshooting, Software Testing, Microsoft 365, Project Management, Project Planning, Task Delegation, Stakeholder Communication, Cross-Functional Coordination, Requirements Gathering, Backend Development, Leadership, Problem-Solving, Adaptability
